

The Vulnerability of Yemen's IDP Population

World's Worst Humanitarian Crisis

Internally displaced persons (IDPs) are "persons or groups of persons who have been forced or obliged to flee or to leave their homes... and who have not crossed an internationally recognized border" (OHCR)

Yemen's civil war erupted in 2014 when Houthi rebels captured the capital city Sana'a and the government. The civil war has devolved into a humanitarian crisis.
